

«THE YOUTH IN SCIENCE: CHALLENGES AND PROSPECTS»

SCIENTIFIC-PRACTICAL STUDENT CONFERENCE

The speech time at the conference is limited:

- 7-10 minutes for 1st and 2nd year students
- 10-15 minutes for 3rd and 4th year students

Presentation structure

- Slide 1:** title slide
- Slide 2:** degree of development and relevance of the subject
- Slide 3:** purpose, hypothesis and objectives of the research
- Slide 4:** methodology and methods
- Slides 5–6:** the content of the research
- Slide 7:** analysis and practical significance of the results achieved
- Slide 8:** conclusions
- Slide 9:** sources

Information layout requirements

- horizontal arrangement of information
- the most important information in the centre of the screen
- image comments should be placed below the image
- one slide should not contain more than two circular diagrams

Font requirements

Use:

- a larger font size for titles and a smaller font size for slide text, with fonts in titles and slide text being the same
- title font size should be at least 24 points, the rest of the information should be at least 18 points

Colour scheme and slide design

The colour scheme should be the same on all slides. A maximum of two colours should be used per slide: one for background and one for text, and the colours should complement each other

Scope of information

Do not:

- overload slides with neither text, nor graphic information. A presentation accompanies the speech, not replaces it.
- read off the slides
